BLUNTS

WHAT'S INSIDE

- Two grams of 100% premium full flower
- Premium European hemp wraps
- Topped with a glass tip that provides a smooth, flavorful draw
- Hand-rolled with care

GOOD DAY BLUNTS are made with two grams of premium flower, hand-rolled with care in small batches, and topped with a glass tip for an optimized experience. These blunts are made from full flower in perfectly manicured mini nugs, meaning that the medicine within never contains shake, trim, or stems which can produce a subpar or harsh smoke. Our commitment to using the best materials ensures that every blunt provides a slow, even burn. Smooth. Flavorful. Ready to spark.

GOOD DAY BLUNTS, the most smokable blunt in the South.
